

# DECON RESPONSE VEHICLE (DRV)

- + Quickly deploy critical decontamination services where they're needed

- + Integrated washdown and fresh water systems

- + Built tough, ready for off-pavement and other extreme environments

- + Available interoperable voice, video, and data

## RESPOND // MITIGATE // RECOVER

A place for everything and everything in its place. The Decon Response Vehicle (DRV) by Nomad GCS is your first line of defense in pressing public health and safety deployments. Today's challenges are different from yesterday's (and tomorrow's). With near-limitless configurations, the DRV stands ready to serve the mission at hand... Chemical washdown, infectious and environmental disease response, mobile testing and lab work. Urban, rural, off-grid. Choose your mix of storage, workspace, and communications options and trust that Nomad's uncompromising build quality and steadfast 24x7 service won't let you down... When every minute matters.

**Let's build something great together.**
