

# FEDERAL LAW ENFORCEMENT AGENCY

## SPECIAL RESPONSE VAN

**MISSION //** This federal law enforcement agency required five mobile special response vans to support critical incidents and coordinated responses throughout the United States. These vans can also be used for negotiations operations in the field.

**SOLUTION //** Nomad GCS designed, manufactured, and integrated this fleet of five vans built on the Mercedes-Benz Sprinter 3500XD chassis. Collaboratively developed with two other federal agencies for streamlined procurement, these units feature workstations, emergency and scene lighting, and galley amenities to support extended deployments. The vans include an automatic leveling system, exterior awning, and Cummins Onan 8kW generator, ensuring functionality and reliability for rapid and coordinated operations among federal partners.
