

# SAN MATEO COUNTY SHERIFF'S OFFICE

## MOBILE COMMAND TRAILER

**MISSION //** The San Mateo County, California, Sheriff's Office developed a requirement for a Mobile Command Trailer to support field operations. Their mission requirements dictated a rugged trailer towable by a standard full-size sport utility vehicle, so efficient use of space and weight savings were a primary design factor.

**SOLUTION //** Nomad GCS designed, manufactured, and integrated this custom 16' aluminum bumper-pull Mobile Command Trailer to enhance the San Mateo County Sheriff's Office field operations. Engineered for rugged reliability and efficient space utilization, it features interior workstations with dual monitors, an exterior briefing station, and advanced connectivity via AvL 1M satellite and intelligent routing technology. Nomad Total Command™ (NTC) automation, redundant HVAC, emergency lighting, and an 8kW generator ensure operational readiness in any environment.
