

HI-TECH CHARITIES

MOBILE MEDICAL UNIT

MISSION // Hi-Tech Charities provides charitable services in the St. Louis, Missouri metropolitan area. The organization sought to launch mobile, just-in-time client services to improve accessibility and deliver faster response times to those in need.

SOLUTION // Nomad GCS designed, manufactured, and integrated this 30-foot Mobile Medical Unit. Built on a Ford F-750 chassis, the platform features a flat-floor slideout, exam room with table, office area, and an ADA-accessible restroom. A wheelchair lift, automatic leveling system, dimmable interior LED lighting, exterior awning, and Cummins Onan 12kW generator support mobile services.
